BoostEngine 🚀

By: LunaLynx

Introduction

BoostEngine is a powerful tool designed to optimize your computer for gaming performance. This project aims to help gamers boost their system's speed and stability, resulting in an enhanced gaming experience

Key Features

- Easy to use: Because BoostEngine is developed in C++ 17, you can either download the compressed binary or build it yourself.

- Customizable: BoostEngine comes with a default configuration that can be customized to suit your preferences.

Pre-configured settings

```json
{
    "processes": [
        "GoogleUpdator",
        "MicrosoftEdgeInstaller",
        "msedgewebview2"
    ],
    "services": [
        "spooler"
    ]
}
```
